I am a cobweb, yeah  
In the corner of the room  
I tell you I built myself a boat baby  
So come on and cry me a monsoon

And get busy on it, baby, yeah  
[Incomprehensible] make it deep

Imagine how surprised all the kids will be  
Empty bottles, saviors they crawl  
That has always been and will always be  
There's a hornet's nest in my head  
Come and save me

Come and save me

Well, if I don't say nothing  
You say now tell us what to do  
So I tell y'all this is just how I live  
And somebody else calls it the news  
But that's yesterday, yesterday's news

Imagine how surprised all the kids will be  
Empty bottles, saviors they crawl  
That has always been and will always be  
There's a hornet's nest in my head  
Come and save me

Imagine how surprised all the kids will be  
Empty bottles, saviors they crawl  
That has always been and will always be  
There's a hornet's nest in my head  
Come and save me

Save me  
Save me  
Save me
