Find yourself know yourself don't lie to others.
Don't you fuckin' lie to me just to save some face.
You've plagued us all with your thoughts and your
disillusions.
You'd die for me kill for me take away this pain.
The smallest thing as a friend sorry you couldn't be.
Speak not to me with hostile intentions.

Chorus:

Turn around and look at me shadows without a soul.
I've fallen down onto my knees to crawl out from this
hole.
Just a man without a face drifting out of sleep.
Insecurity consuming you as your mind swallows you
deep

Blood shot eyes and swollen veins wont heal your soul.

When I take I take to heal but misery sleeps with me.
A talking myme cloudy mind lacidazical.
When you take you take to steal so misery wakes with
me.
When I'm wasted sinkin' down.
Down into this chair.
This desert moon surrounds me and the sand becomes
my bed.

Chorus

I think there's something really sad about the way you
live your life.
You always want respect from me well respect me not
you die.
Sorry that you had to ruin all of your precious dreams.
Deny me not for being high well
She gives me all, gives me what i need.
Don't you fuckin' lie!

Chorus
