If you want, just let me know
('Cause I can turn you out)
My envelope's about to explode
I got what you need and you know
(So we'll never have a doubt)

If you want love, just let me know
So I can turn you on
(Just turn me on, turn me on, turn me on)
Turn you on
(Just turn me on, turn me on, turn me on)
Turn you on
(Just turn me on, turn me on, turn me on)
Turn you on

Baby, when you're gone, I don't know what to do
'Cause ain't no other lady make me feel brand new
And ain't no other woman that I want to pursue
If you want my loving, I'ma give it to you

Let our bodies collide and me enter you
Meet me online, take a little preview
Sex on the net, got my girl in the nude
And you know our connection is long overdue

'Cause I got my needs and I need them right now
And I'm here to rock the show
And see, I've been on the road on my fucking
homeroom
So please try and overload it

After the show [unverified], we can still rock
Come on and you loving
(Your loving)
You loving
(Your loving)

I really need your loving, need it
If you want some loving, send a request
I'ma send it over to you next day, you p.s
That's ultimate pleasure, special delivery
I'm down for whatever, you got me feeling fevery

If you want, just let me know
('Cause I can turn you out)
My envelope's about to explode
I got what you need and you know
(So we'll never have a doubt)

If you want love, just let me know
Turn you on
(Just turn me on, turn me on, turn me on)
Turn you on
(Just turn me on, turn me on, turn me on)
Turn you on
(Just turn me on, turn me on, turn me on)
Turn you on

If you want my loving, I'ma give it to you
If you need it right now, I'ma send it on through
Fed-Ex, overnight loving, sex, me and you rubbin'

A telegram of a different kind
I'ma taste your body and seduce your mind
Lick your envelope bend behind
Put my stamp on and then it's mine

'Cause I got my needs and I need them right now
And I'm here to rock the show
And see, I've been on the road on my fucking
homeroom
So please try and overload it

After the show [unverified], we can still rock
Come on and you loving
(Your loving)
You loving
(Your loving)

I really need your loving, need it
If you want some loving, send a request
I'ma send it over to you next day, you p.s
That's ultimate pleasure, special delivery
I'm down for whatever, you got me feeling fevery

If you want, just let me know
('Cause I can turn you out)
My envelope's about to explode
I got what you need and you know
(So we'll never have a doubt)

If you want love, just let me know
Turn you on

(Just turn me on, turn me on, turn me on)
Turn you on
(Just turn me on, turn me on, turn me on)
Turn you on
(Just turn me on, turn me on, turn me on)
Turn you on

Love me baby, love me, love me perm'ny, perm'ny,
perm'ny
You know I love to love you, love you perm'ny, perm'ny
You got me feeling for your love, you got me yearning
(Yearning)
You turn me on and turn me off
So keep on turning
Till my turn you know that I'll be learning

New love tricks to make you go
(Ooh)
My magic stick can make you go
(Ooh)
I love you from the bottom to the top and make you go
(Oh)

So if you want some loving, send a request
I'ma send it over to you next day you p.s
That's ultimate pleasure, special delivery
I'm down for whatever, I'm even coming nightly

Knocking on your door, you know what the visit's for
That's sex in your living room, the bathroom floor
When I leave you, be like 'give me more' but remember
W I double spells pleasure

If you want, just let me know
('Cause I can turn you out)
My envelope's about to explode
(You know what I'm talking bout)
I got what you need and you know
(So we'll never have a doubt)

If you want love, just let me know
So I can turn you on

If you want, just let me know
('Cause I can turn you out)
My envelope's about to explode
(Oh)
I got what you need and you know
(So we'll never have a doubt)

If you want love, just let me know

So I can turn you on
(Just turn me on, turn me on, turn me on)
I can turn you on
(Just turn me on, turn me on, turn me on)
I can turn you on
(Just turn me on, turn me on, turn me on)

Turn you on
(Oh)
Turn you on
(Oh)
Turn you on
(Oh)
Turn you on
(Oh)

Turn you on
(Oh)
Turn you on
(Oh)
Turn you on
(Oh)
Turn you on
(Oh)
