Wow, we in stereo

Question for the ages

What's goin' on with my rap pages?

Rappers wanna be down, but listen, listen

You got to feel it within your body and your spirit

When you listen to the rhythm, come on

It's the abstract, Will is on the beat

Women all around the globe, the world

You got to follow me

Change your history, categories

Different people in the same territories

Hip-hop in here for my Black Eyed Peas

So watch it, watch it be mindful of the speakers please

'Cause they gonna rumble and shake the ground

Break atoms breakin' sound

Fill the embraceful pound

Treat all the things profound

If you wanna dude to help you out

Make it cool around your friends without smokin' now

Play the song kinda loud, it could help you out

And you could work it out, yeah you could work it out

It's like that, and a

And we got it like that, like that

You know we got it like that, like that

Y'all we got it like that, like that

It's like that, like that, like that

Y'all we got it like that, like that

You know we got it like that, like that

Yeah, we got it like that, like that

It's like that because I got it like that

And I got it like that also

Got a style, that's way out like Bosto

You know I'm known to cook a nigga like charcoal

Steady droppin' rounds like it's heavy cargo

Can I kick? Yup, really far though

From El Segundo to Toronto
I once hit a girl up in Chicago
But I'd never say ho unless my name was Tonto

Yup, you know how the date rape though
Kobe showed a classic example
Now they know the Peas collect the dough
So they knockin' on our door like we was Fargo

Yup, they see me in a Will.I.Am suit
But I wasn't that cute when I didn't have the loot
And I don't smoke herbs
But I'm still real nice with the verbs
So fuck what you heard

'Coz we got it like that, like that
You know we got it like that, like that
Y'all we got it like that, like that
It's like that, like that, like that
Y'all we got it like that, like that
You know we got it like that, like that
Yeah, we got it like that, like that
Talib, just hit ?em like that

Yeah, I'm from the jungle, brother
And I got it like that
Yo, my life got me runnin'
Through a maze like a white rat

I need a shot of Remy
Like my rap
It's like the yack is the fights
That got me spillin' on the right track

And I like this, Will so I might get ill
On the mic somebody might get killed
So many damn rappers there's a stifle in heaven
My tongue is a weapon
And plus when I bust, it's the stuff of legend

When this Brooklyn MC come after you
You'll be runnin' like a herd of caribou down Myrtle
Avenue
Where we at ain't nothin' pretty, that's the attitude
To be at Fight Club, even Brad had to crack a tooth
Stare into the sun, they try to copy
Let your eyes get used to the light because you gotta
watch me
Sneak up on you like saki, my lyrics get out of a split
atom
Like Hiroshima and Nagasaki

It's the Apl with the ab in the lab with the rap
Demonstrate how we act, we attack any track
It's the Black Eyed Peas and we back with the facts
Start with the fast skills that rose in the pack

We got it like how you know how the beast rocks
Entertain you, see you soon at the next spot
The crew got you bouncin' and droppin' your eye
Makin' you naha ehshabisha e mat

Tss tsss tsss, I'ma roll with the hot
I'ma flow from the soul when you can't hold me back
Ke-ke-keep on keep on rollin' the track
I'm a simply, simply always attach

Jeepney Music by Apl.De.Ap
