You gotta keep it on the positive

Na, na, na...

Nowadays it's hard to make a livin but easy to make a
killin 'cause

People walk around one just one itchy feelin
I feel nauseated from your evil drug dealin, bless
feelin

The definition of top billin

It's ill the my vocabulary

Diggin your life style scary

No wonder why you carry a two, to retaliate

Tryin to annihilate

The one a two annihilate you

They got some dude just to get you bugged

Really y'all, this shit is all out of whack

You can go out at night yet you won't come back

And this verse that I'm kickin some might take it
personal

And come out and get me, but worst of all

These rap fans are taking these shit serious

It ain't New York versus L.A.

'Cause really it's hip-hop, not a big ole' problem

Now let's see what we could do to solve them (Solve
them...)

Na, na, na...

We gotta keep it on the positive (Positive...)

Na, na, na...

We must keep it on the positive (Positive...)

Lucifer's got your little mind twisted

'Cause God once gave you the meaning of life and you
missed it

You've been listed in the devil's books

Livin the life of crooks and hoes and in such and such

All that shit, that don't mean much

You got one hand on your gat while your genitals are
being touched

Livin the life that's plushed and glamorous

Drunk and high with your little soul's crushed

Don't you know that life is a mirage
I keep myself sober so my soul is camouflaged
If the devil cannot see me tell me how can he attack me
If he can't grasp a hold tell me how can he try to snatch
me
I ain't talking about the white man, the black man or a
Jew man
'Cause the devil can exist in every human
Look how Biggie went out, and Tupac went out
And Martin, and Malcolm, and Kennedy, and ?Squeek?
And Adam, and Rene, and so on, and so on...

Na, na, na...
We gotta keep it on the positive (Positive...)

Na, na, na...
We gotta keep it on the positive (Positive...)

Even though we got problems
We gotta find some way to solve 'em
I hope you come and follow me now
(Keep it on the positive)
Even though we got problems
I hope you find some way to solve 'em (Solve 'em...)
(Keep it on the positive)

P-O-S-I-T-I-V-I-T-Y (2x)

We're currently located over the Los Angeles scene
While you see a lot of niggas perpetrating like they're
kings
With this so-called God complex
But when I see they mind they only see checks
So let's get our heads together
Let's form a foul weather
Proclaim against perpetrators

Well said, Alligator
Our realm, no perpetrator
A society choose the elevator
Of success by identity cross-fader
Complex thinking they're really much greater
Plain raw, harness all, maybe rough radar
Tough enough to perpetrate, I talk to you later

But wait, what about that midget brains
Unable to see reality too unreal
I'm sealed with mind, body and soul
Connected together, we tougher than leather
We much more than you think we are
We are the product of our on environment repent

With equality, plus duality
And taken all kind of possibilities (...bilities)
I sing the song from the soul
Let it rise from the tone
Let it rhythmically grow
Into it's own life
Let it become you
Then you become it
Once you become it everything will be infinite
Will be infinite, will be infinite, will be infinite...

We much more than you think we are
We are the product of our on environment repent
With equality, plus duality
And taken all kind of possibility
I sing the song from the soul
Let it rise from the tone
Let it rhythmically grow
Into it's own life
Let it become you
Then you become it
Once you become it everything will be infinite
Will be infinite, will be infinite, will be infinite...
