Give it to me. give it to me dirty dirty
Give it to me girl dirty dirty(x4)
I wanna make you wet I wanna make you cum
Oh yeah it feels so good rub up against my tongue
I want it I want it I want it I want it I want it I want it I want
it I want it
Give it to me. give it to me dirty dirty
Give it to me girl dirty dirty(x4)
I wanna make you wet I wanna make you cum
Oh yeah it feels so good rub up against my tongue
I want it I want it I want it I want it I want it I want it I want
it I want it

The first time that I really liked your eyes
The conversation gave me butterflies
I knew it was you for the rest of my life
Now you got me crying in between your thighs
Pop my neck girl make me feel good
Make me feel hot with the ways you look
Reading my mind like an open book
Be kissing on me like the way you should
I love the way you say oh my god
Going up and down while I fuck you hard
I'm the perfect key that matches your lock
Doggy style to get you off
We can have sex in the room or the kitchen
Fucking all night in your favorite position
Running my tongue all over your pit
And making you cum is my number 1 mission
The next time your talking on the telephone
Telling your friends about the guy you boned
Let em all know that your pussy got owned
Now it's all sore so you gotta walk slow
I always love it when you give me some
It really doesn't matter if your stoned or drunk
But turn down the dick if you gotta take a dump
Cause that's just nasty and I don't want none

Give it to me. give it to me dirty dirty
Give it to me girl dirty dirty(x4)
I wanna make you wet I wanna make you cum
Oh yeah it feels so good rub up against my tongue

I want it I want it I want it I want it I want it I want it I want
it I want it

I can't believe that your one of my fans
Using your teeth to unzip my pants
The shirt you took off has stars and straps
You got blue eyes and I'm having a blast
I made a little trail off skittles
Running from yo neck down to yo clit
I gotta get you warmed up before we fuck
So I'm putting my fingers in
If you wanna make my dick get hard
Just jack it while your giving me head
If you decide you wanna be a superfreak
Lets fuck on your parents bed
It really feels best when I'm in your pussy without a
condon on
I'm a nympho honey and I really love sex
So I'm lasting for hours on
I really wanna suck on your bottom lip
While I'm running my tongue across
I'm gonna fuck you so damn good
You'll be thinking about me when your getting off
I wanna make you reach climax
Everytime you and I will screw
Tighten up your pussy lady
Feel me cum inside of you
I know you really like the way it feels when I french you
with a twist
I'm gonna make you go to the bathroom just for a bit
just to play with your clit
When I push my dick in deep inside your hole I can feel
the tip touch the back
That why I perfer you in a mini skirt when your sitting on
my lap

Give it to me. give it to me dirty dirty
Give it to me girl dirty dirty(x4)
I wanna make you wet I wanna make you cum
Oh yeah it feels so good rub up against my tongue
I want it I want it I want it I want it I want it I want it I want
it I want it

You told me that you like being naked when I'm on top
of you
Especially when I'm in so deep it feels like my cock is
lost in you
Scraping the only guy that you sleep
I love it when you wear victoria's secret
I feel so lucky every time that I see it
Thank god I was born with a penis ooh

Put on these booty shorts
Come on girl give me a modeling session
You been a really naughty girl
So now it's time for me to go teach you a sexual lesson
Now that you got my dick up girl ride it till you orgasm
I'm gonna fuck you so damn hard
It'll sound like there's a door slamming
Go ahead and masterbait but this song I'll repeat
Pull the blankets over you and make your pussy cum
for me
I've never been the type of guy to pull out and just cum
on your tits
I'd rather do it inside your pussy or at least in your crip

Doesn't it feel good rub that pussy baby
Doesn't it feel good rub that pussy for me
Doesn't it feel good rub that pussy baby
Doesn't it feel good rub that pussy for me
Doesn't it feel good rub that pussy baby
Doesn't it feel good rub that pussy for me
Doesn't it feel good rub that pussy baby
Doesn't it feel good rub that pussy for me

Give it to me. give it to me dirty dirty
Give it to me girl dirty dirty(x4)
I wanna make you wet I wanna make you cum
Oh yeah it feels so good rub up against my tongue
I want it I want it I want it I want it I want it I want it I want
it I want it
Give it to me. give it to me dirty dirty
Give it to me girl dirty dirty(x4)
I wanna make you wet I wanna make you cum
Oh yeah it feels so good rub up against my tongue
I want it I want it I want it I want it I want it I want it I want
it I want it
