I like piercings, dyed hair, tight jeans, nightmares,
Ice cream, bright things, I love it when you bite me,
French kissing, lip rings, razorblades, sick dreams,
Cuss words, body art, ladies who can party hard

If you're down with the E to the M to the O,
Then you're down with the ghost, lettin' everyone know,
It's a long hard road and the length of your life
Is like a setlist?, it's all stop and go,
It's like breakin' the skin at a hardcore show,
You can feel yourself bleed but it's just so "Oh"
When it feels so good when you're fucking slow,
'Cause your pussy's so wet and it makes me blow

I wanna do you right, I wanna do you good
I wanna lick that clit underneath your hood
When you're kissing my neck and you're kissing my ear
I can feel the whole world just disappear
I no longer feel pain, everything's so clear
I swear I wanna live my whole damn life right here
I see paradise when I look in your eyes
When I'm at your side, I get a natural high
You're the favourite thing that I have in my life
We can stand as one till the day that we done
And the rest of the world can fall on my knife,
You're the only girl that could be my wife

I had a broken heart and it bled my soul
And now that it's healed it's no longer cold
My life is like Rummi and I cannot fold
'Cause I got a good hand till the day that I'm old

I like piercings, dyed hair, tight jeans, nightmares,

If you feel like sex and it's kinda toasty,
Take your shirt off girl and do it slowly
Let me relax while you sit on my lap
I love it when you grind on my dick like that
We got candles lit, I wanna tap that ass
Take the lingerie off and lay down your back
We could start off slow till you wanna go fast
We could sex sex sex to a dirty rap
Put your hand in my pants and let's have a party
Me and my dick are a one man army
I love it when you get your lipstick on me
Sometimes your vagina sounds like it's farting

If you're the type that doesn't put out
We could 69 on the living room couch
I wanna feel myself deep inside your mouth
I got the kind of dick that doesn't go down
Call your friends up now 'cause it's time to get drunk
Tell your boyfriend that he just got dumped
For an MC with a beat that?
And you wanna have fun 'cause you only live once
So take my hand, this must be fate
I knew from the first time I saw your face
We talk every night and don't care how late
Without you my life wouldn't be the same

And if my life should end today
The pain I hate would go away
Put black and red roses by my grave
And think about me when it rains

I love you more than words could say
As every dark night turns into day
This broken heart will never fade
And my soul will still remain
