

Black Flag "Loose Nut"

Visit "[Loose Nut](#)" on MotoLyrics.com

Loose nut in my head
Loose nut rattling my skull
Crying for a human touch
Or anything that'll reach my soul

*(x2) loose nut in my head
A bolt of lightning between my legs
I can't think straight my mind's a mess
I only see straight when I'm being led

Loose nut, I want head
The loneliness I dread
Loose nut you can help
Be with me so I don't hurt myself

*(x2)

Loose nut, no bolt fits
My head is giving me fits
Loose nut looking for diversion
Just anything that'll let me stick it in

*(x2)

Don't mind my crazy smile
Hand me the phone so I can dial
I'll be back in a little while
But first I gotta get some vertical smile

*(x2)
