Don't need another weight around my neck  
don't want no two-timin' nervous wreck  
don't need a rich boy, to drive my car  
get the message honey, stay where you are

Hear that wheeler rollin' down the track  
ain't no use in you just turnin' your back  
the winds are rockin' out the cradle of love  
this ain't the season or the summer of love

So if you think you've got it together  
there's just one thing you oughta know  
Never let me go  
Don't let me go

Don't need another love to tie me down  
don't want no whispers 'bout you leavin' this town  
you might be ready for the show to begin  
but I ain't got time for any innocent thing

So if you think you got it together  
there's just one thing you oughta know  
Never let me go  
Don't let me go
