Spoken:

You don't have anything personal against me do you?
You bet I've got something personal against you!

We know
You stole our song
You were there
Every touch in wrong(?)
You were there
Fuckin wrote it all down
You invent
Everything you've done

Now you bet that I've got something personal against
you!

You deny
All the sleaze and graffiti
You inflect
You look from our path(?)
It's minus and you're impossible laps(?)
We know
What you've been lying about

Now you bet that I've got something personal against
you!

You deny
Sitting at the corner
You die(?)
But the love of your own(?)
You've got
Nowhere to go but down
