Take a look
If you follow I will lead the way
It's never the same
Looking back we don't wanna live in yesterday

You and I are alright
Because together we are the lock and the key
Come on, put your hand in my hand
If ... we can both be free
Cause you,
You make me feel.

Always when I see you darling
You're up in the clouds above.
And baby tonight she got me so damn high,
That I think this could be love.
And tell me if you think sometimes
that the feeling gets too much
Cause baby tonight she got me so messed up,
That I think this could be love.

Something I know, now I see it's only you who woke me
up from the daze.
But I'm sure, we go together, you're the fire that sets
my heart ablaze.
Won't be long now baby, til the only time I have is you.
Every step we take together is a step nearer the feeling
true.
