Hold tight, midnight
Am I dreaming, or are you beaming out?
Are you beaming out?

Black light, snow white
Red fluorescence, iridescence, now
Are you beaming out?

Don't you know that
When I see, your face
It's like sunlight dripping

When I see, your face
It's like sunlight dripping

You're just like (You're just like)
You're just like
Sunlight
Sunlight
You're just like (You're just like)
You're just like
Sunlight
