"Fade Away"

(Oooohhh)

Through this land of tragedy;

I try to find my way;

And in this town of misery;

I search for you;

Now we walk away;

To the last of the days.

(Oooohhh)

And in this world;

There were only memories;

Of how we could get through;

There was just no way to see;

Now we lost our way;

In the land of the day.

(Oooohhh)

And in this life;

How will they remember me;

Will they see the truth;

Will they just lose everything;

Now it fades away;

To the land of the day.
