My heart is bleeding rain drops, they're lonely rain  
drops  
When it used to shower all night long  
And in the well they'll find my heart, that I gave to you

My heart is bleeding rain drops, they're lonely rain  
drops  
When it used to shower all night long  
And in the well they'll find my heart, that I gave to you  
And in the end they'll find your name, stitched to my  
heart

I've been locked away  
I'll keep it locked away  
I'll keep it locked away  
Where they'll find no trace  
I'll keep it locked away  
Where they'll find no trace  
I'll keep it locked away  
Where they'll find no trace

And in the well they'll find my heart, that I gave to you  
And in the end they'll find her name, stitched to my  
heart
