"Sympathy Crime"

This one finds you nowhere
Abandoned your truth unfolds
You came
You failed
And it means nothing
This one you take with you
This is one I could never forget
You run to that side
And it means nothing
You fade into that life
Where it means nothing
This is what they want you to think

It was torn from you then you fade from them
And you wait you wait so long
'Till it means nothing
Don't wait don't wait so long
'Till it means nothing
(The girls sing) crime crime crime
Ascent and decline
Crime crime crime
It's a sympathy crime
