Dreaming in another reality... intoxicated  
Stripping through the nightfall  
Hailing the wolves of demise  
Staring at the frostmoon  
Mighty reigning from above

The inner blackheart of the soul  
Poisoned by grief and despair  
Without embracing solace  
The shape never vanishes

Blackthorns in the engorged mind  
A deathtrip to a cosmic void  
Eclipsed by polarizing sorrow  
Huddled in the safety of intoxication

Reveal the secrets of your creation  
Thou, the Blackheart,  
The kinglike epicentre of the universe  
The Echo in the empyrean  
Through their fall, thou rise above  
Being life and death,  
Hate and love!
