Livin' up, fightin', obsessin'
Just as long as I can share it all with you
Yesterday, today, tomorrow, come rain, come shine
Hell and back, the beginnin' in between 'til the end of
time

All that shines turns to rust
All that stands in time turns to dust

As above, so below
You ain't no fool and honey, I'm damn sure that you
know
Yesterday, today, tomorrow, come rain, come shine
Hell and back, the beginnin' in between 'til the end of
time

All that shines turns to rust
All that stands in time turns to dust

All that shines turns to rust
All that stands in time turns to dust

All that shines turns to rust
All that stands in time turns to dust
