AC, AC

Put your hands up
Put your hands up
Put your hands up

Shoulda known something was up
When I got up
Something felt funny to me
From the get up
Jumped up out of the bed
With my head up

Guess who was staring at me?
An ET or an alien
But he said his name was Steve
And he didn't look like what I thought he would be
He said "Aaron, will you help me please
Get your space suit and come with me"

So we hopped up, in the space truck
It was all combed out with the system up
And I thought we were going to Mars
We made a left
At the dipper
Never figured that we'd be here with a space majiggy

We got there and I read a sign
It said "Welcome AC, it's about time
Can you show us,
Can you help us,
To dance tonight?
'Cause we have no rhythm
And we're running outta time"

Roll up to the rock where
There's a universe of rhythm
And the beat don't stop in AC's Alien Nation
Everyone is a cosmic freak
And we only have one mission
Gotta move as one in AC's Alien Nation

Listen up
Here's what you got to do
You take one step up
Don't try to take two
Make sure that you bump your fists like this
Nod like this, and rock like this

Cuz everybody gotta learn this way
To a be together, stay together
Know we gonna inovate
Moonwalk, star drop
A universal big top

Circus notice, and you gotta know this
It really doesn't matter
If you're short or tall
Green or blue
Fat or bald
'Cause I came with a groove
And I'm proving it all
Around these parts we don't take no show

With the unity soon to be in the streets
You can see with your own eyes
How far we've come
'Cause we didn't have rhythm, now we've got some
It's just another day in the AC Nation

Roll up to the rock where
There's a universe of rhythm
And the beat don't stop in AC's Alien Nation
Everyone is a cosmic freak
And we only have one mission
Gotta move as one in AC's Alien Nation

You say you wanna dance
Well, here's your chance
(Uh, uh) 4-3-2-1
Break it down, we gonna break it on down
(Uh, uh)
Right, right to left
(Uh, uh)
Right, right to left
Up and down and side to side
C?mon, what, we're gonna bounce like this
What, what. We gonna pump them fists, what
AC baby, AC baby, that's where we at C?mon, drop it
down
4-3-2-1
Drop it down

Roll up to the rock where
There's a universe of rhythm
And the beat don't stop in AC's Alien Nation

Roll up to the rock where
There's a universe of rhythm
And the beat don't stop in AC's Alien Nation

Roll up to the rock where
There's a universe of rhythm
And the beat don't stop in AC's Alien Nation
Everyone is a cosmic freak
And we only have one mission
Gotta move as one in AC's Alien Nation

[Repeat chorus and fade...]
