When you have lost the power
They used to leave you fee
To know you have this anger
For all the things you've seen
Believe the growing numbers
The seeds will give a tree
Life has a room for difference
Cause you'll rise and you'll see gold in your pain

Something's coming up
Something's coming up, my friend
It's all right
Something's coming up
The wind is full of extra air

The only way to live in
A world that doesn't care
Of, how you could breathe in
A non dreaming air?

Is to believe in the next day
Seek beauty everywhere
The world we live, my fears
The shadow of the day
I hope it's in my veins

Something's coming up
Something's coming up, my friend

I know by now
Something's coming up
The wind is full of extra air

In no way this is strong and
I can feel my eyes
Burning all day long
From the fire of my prize
A rainbow above the tree
I came out of the pain
A rainbow above, how beauty
Sometimes comes out of convex, my needs, my strain

Something's coming up
Something's coming up
My friend

It's all right
(Ah)Something's coming up
(Seeds of gold) The wind is full of extra air

(Ah)
(Seeds of gold)

(Ah)
(Seeds of gold)

Ah) Something's coming up
(Seeds of gold) Something's coming up
My friend

I know by now
(Ah) Something's coming up
(Seeds of gold) The wind is full of extra air

(Ah)
(Seeds of gold)

(Ah)
(Seeds of gold)
