Urge  
Imaging hard  
Cold side darkside  
A visage outlined  
Cold shards deviate  
Flux liquefied  
Beauty and strife  
Amaze me cold force  
Life strike me blind  
Scorch  
Lights lost  
To me  
Burn mine  
Breed new  
Life  
Scorch eradicate  
Pund nullify  
To purge what comes to mind  
Sensory output  
Mind overload  
Word will feed me anything but  
World doesn't seem  
To care about anything  
Any thing anymore mother  
Wake me mother wake me  
Pray life forgive me  
For I falter  
Time is running white  
Uniron the other  
Once of sangueness  
I am altered  
In passion chaste as ice  
Integrity water  
Burn mine breed new life  
Wake me,  
Wake me
