PsychoActive SataN  
Cogwheel of addiction  
Avatar X daemon  
Consciousness modification  
A Vision  
Ashes of extinction  
Connect. Load. Accept. Transform  
PsychoActive SataN  
Chemical Fire Amon  
Opening gates of perception  
Wisdom through destruction  
Intuition  
Morbid Premonition  
Absorb. Inhale. Plug in. Hell

The flames of deities  
Are now in my chemical candies  
I hold my substance Sirius  
Close to my heart

God is scared by our pills  
Can you dare our black magic  
Satanic rush  
Puking blood  
Morbid spasms  
Life decay  
Fading breath  
Challenging death

Satanic Rush  
Crawling on the ground  
Tetanized  
Spiting  
Electric eyes  
Staring  
At the Black Idol

Holding the breath  
Feeling particles  
Draining through my blood  
And soul  
Anaesthesia for flesh

Euphoria for the mind  
Black hole esoterism

God is scared by our pills  
Can you bare our alchemy  
Satanic Rush  
Pulsing veins  
Striking terror  
Paranoia  
Psychosis  
Delirium  
Schizophrenia

Satanic Rush  
Heart beating hard  
Skin suffers nails carved  
The transformation is on  
The Sabbath begun
