Falling churches of dead stones  
Blackened skies of fire clouds  
Waves of disease scorning the land  
Signs of Stars the Prince descends  
Arrogant Lords of Wars rise  
The Necropulse Nexus human demise  
Forbidden Gates open widely  
As it's slaves hails it's infinity

Oh No!  
... SataN!  
This is the Arrival...  
... of SataN!

Raining blood thrashing as it was said before  
Their states sinking under Anarchy's Lords  
His Throne is made of shredded humans dying  
And his scepter of Christblood blackshining  
His command is vibrating with steal  
Signs of the Revelations seal  
Human souls Aquarius loads  
This the times for new Gods!

Oh No!  
... SataN!  
This is the Arrival...  
... of SataN!
