Breath of the Fire Demon
Alliage of PsychoActive keys
Provider of Goat sphere
Bridge to the NeXus

Path to SataN

Gathering tools for the Ritual
Each step is essential
An animism purely technological
Stupefying substance
Filter to access trance
Inhaling angels
This is pure transcendence
Burning like a star

This is
The
Path to SataN

Aggressive flash of mysticism
Voices from uberdimensions
Visions fix PsychoActive MiX
Get command of resonance
With daemonic vibrations
To cross Cerberus gates
Or drown in Hell

Rejected from higher Altars
Back in Worms usual web
With His knowledge
Beware
