You are dating a good looking girl,
She is young, hot, sexy with long blonde hair
She's an angel made by heaven's god
Your fortune smiled when she crossed your path

But unfortunately, this all happened to be
A tragic ending of all that what used to be
She saw my looks and then she fell in love,
You know why? Because it's me

Why do you even try to hit every girl that you see?
While I'm standing here right next to you, Oh can't you
see?

The girl is mine, yes, and that girl too
The girl is mine, yes, and that girl too

The girl is mine, yes, and that girl too
The girl is mine, yes, and that girl too

A week later, you've found a new chick
She has a beautiful face with long black hair.
She kisses well and you fall in love.
She's the one for you, the only one you want.

Well hello there. It's me again
I'm a living god, I've come to take your girl
So piss off, and get out of my way
You just ruin the day

Why do you even try to hit every girl that you see?
While I'm standing here right next to you, Oh can't you
see?

The girl is mine, yes, and that girl too
The girl is mine, yes, and that girl too

Why do you even try to hit every girl that you see?
While I'm standing here right next to you, Oh can't you
see?

The girl is mine, yes, and that girl too

The girl is mine, yes, and that girl too

The girl is mine, yes, and that girl too
The girl is mine, yes, and that girl too
