The sickman's in my room
He has rendered me asleep
Spread his lungs across my bed
Now I'm doin' time
The sickman's in my mind
Robs the days I pray to keep
And every breath I take is cold
I'm set ultrawide apart
Way beyond the frame
Caught in a leakin' story
Ultrawide apart from me
Watch the dirt beneath my feet
As it's creepin' up
It leaves me unresolved
Am I fallin' off the track ?
What'soever I have fought off
Has now become my life
Has now become my life ...
I'm set ultrawide apart
Way beyond the frame
Caught in a leakin' story
Ultrawide apart from me
From what you think I am
Caught in a leakin' story
Ultrawide apart from me
From what you think I am
I'm caught in a leakin' story
Ultrawide apart
I'm ultrawide apart
I'm set ultrawide apart
From what you think I am
Caught in a leakin' story
Ultrawide apart from me
