If I could only be with you...

When my mind's full of things I could tell you
If you would only take on my prize of love
In my heart, in my soul
You're the one, nothing more

Come closer and let the night begin
I love you like a living
My lover can't you hear me sing

If I could only be with you (ooh, ooh... You'll see the love
inside)
If I could only be with you (ooh, ooh... I'll make you feel
alive)
If I could only be with you

On my life I have things I could show you
If you would only surrender to my love
We would go high, to the sky
Ride the stars up above

Come closer and let the night begin
I love you like a living
My lover can't you hear me sing
