Now I stand on the shores in wonder and awe  
Its vastness and splendor which they explored  
Over this ocean they set out in search of a new home

Under Pacific skies (4X)

With their women and children  
they set out for a journey to the unknown  
Carried by trade winds alone, guided by stars

Under Pacific skies (4X)

In John canoes their journey was long  
Separated by weather, the will was strong  
Losing more loved ones, they set out on a journey to our future

Under Pacific skies (4X)

Rap by O-Shen

We are one people, under Pacific skies

Under Pacific skies (4X)

We are one, under Pacific skies  
We live in love, under Pacific skies  
We're living the dream, under Pacific skies  
We are all one, under Pacific skies

Under Pacific skies

We're living the dream, under Pacific skies
