Midnight, something don't feel right
It's been too much, too far away from home
Hard life, living the hard life
I can't resist, I'm falling
To the danger zone
All day long I'm pushed and shoved
I just can't get enough
In the danger zone
Red light, don't stop for no red light
You know I'm always trouble on my own
Lonely, ever so lonely
I've got too much time
I'm heading for the danger zone
All day long I'm pushed and shoved
I just can't get enough
In the danger zone
I'm eager, eager to please
I can't stand no more

It's got me on my knees
Ain't gonna feel no hurt
Ain't gonna feel no pain
I got nothin' left to lose
I ain't got no shame
Don't try to stop me
Just leave me on my own
I'm gonna live or die
In the danger zone
I'm living in the danger zone
In the danger zone
Hard life, I'm living the hard life
I'm gonna take a chance
In the danger zone
Lonely, ever so lonely
I'm gonna live or die
In the danger zone
Midnight, can't wait until midnight
Help me I'm falling to the danger zone
