

Black Sabbath "Dirty Women"

The neon lights are shining on me again
I walk the lonely streets in search of a friend
I need a lady to help me to get through the
night,through the night
If I could find one, then everything should be alright
The sleepy city is dreaming the night away
But on the street I watch tomorrow becoming today
I see a man he's got taken away women for sale,yes,
for sale
Guess that's the answer, 'cause taken away women
don't fail

Oh, dirty women, they don't mess around (2)
you got me coming, you got me coming around
Oh, dirty women, they don't mess around
Walking the streets I wonder
Will it ever happen
Gotta be good then
Everything will be O.K.
If I could score tonight
Then I will end up happy
A woman for sale is
Gonna help me save my day.
