The world today is such a wicked thing  
Fighting going on between the human race  
People give good wishes to all their friends  
While people just across the sea are counting the dead

A politician's job they say is very high  
For he has to choose who's got to go and die  
They can put a man on the moon quite easy  
while people here on earth are dying of old diseases

I don't know whether it is worth all  
Wondering how a lie got on my mind  
Everybodies running round in circles  
Run around everyday as if they're blind

A politician's job they say is very high  
For he has to choose who's got to go and die  
They can put a man on the moon quite easy  
while people here on earth are dying of old diseases

Sometimes I'm happy  
Sometimes I'm sad  
I lost my woman  
I feel so bad  
She was my first love  
I needed her  
It's hard to bear  
I'm on my own  
own, own, own

Now I will sit here  
Everyday

I love the woman  
In every way  
She was my first one  
It felt so good  
I don't know what to say  
I just feel cold  
cold, cold, cold

I want to reach out and touch the sky  
I want to touch the sun  
But I dont need to fly  
Im gonna climb up every mountain of the moon  
And find a distant man a-waving his spoon

Ive crossed the ocean, turned every bend  
I found the crossing near a golden rainbows end  
Ive been through magic and through lifes reality  
Ive lived a thousand years and it never bothered me

Got no religion, dont need no friends  
Got all I want and I dont need to pretend  
Dont try to reach me, cause Id tear up your mind  
Ive seen the future and Ive left it behind

A woman goes to work every day after day  
She just goes to work just to earn her pay  
Child sitting crying by a life that's harder  
he doesn't even know who is his father
