Got no time to be on the run,
Got no holes in my shoes,
You're the reason all my friends have gone,
But I won't run from you.

So many promises, and you broke them all,
Oh I'll forgive, but I can't forget,
You know you're a fake, but I just can't take no more,
Cause I'm tired of it.

I'm so tired, so tired,
Sick and tired of it all,
I'm so tired, sick and tired,

I'm so tired, sick and tired of it all, yeah.

You turn the truth, then you turn your back,
You're a victim of yourself,
The hate remains, the hurting still exists.
I'm so tired of it all.

I'm so tired, sick and tired,
So damn tired, sick and tired of it all, oh yeah,
I'm so tired, I'M sick and tired of it all.
