Valhalla

The Kingdom of Odin is the Kingdom of Gods
Where only souls of the brave may rest in peace
But someone among them had the skill of deceit
And raised the hand that would open the road to Hel

When the winds of Valhalla run cold
Be sure that the blood will start to flow
When the winds of Valhalla run cold

Valhalla
Valhalla

The ring has been broken and a soul must be saved
Among the bravest of men, who rides to Hel
The long ships are sailing and the chariots ride
Yes the anger of Thor will serve you well

When the winds of Valhalla run cold
Be sure that the blood will start to flow
When the winds of Valhalla run cold

So raise your hands
Reach and Valhalla will save your soul
And raise your eyes
Odin will lead us on

They say that history repeats itself
Upon the year of the seventh century
Well nobody knows, no you never can tell
So you'd better run now and hide away, yeah

When the winds of Valhalla run cold
Be sure that the blood will start to flow
When the winds of Valhalla run cold

When the winds of Valhalla run cold
Be sure that the blood will start to flow
When the winds of Valhalla run cold

Valhalla, you can feel it in the air

Valhalla, oh you better beware, better beware
Valhalla, you can see it in his face
Valhalla, oh he's the master of this place

Valhalla
Valhalla
Valhalla
Valhalla
