(Blackstar;Walker)
You would like to think you know it all
You would like to think you have got it sussed
Well you are a real hopeless fool
Too much in love with lady luck
Well take a look at yourself
When are you going to realise
Well get out of my sight
Because it is you I despise
Well that is right
Yeah so long
You are going to have to face it
That you are nothing but a waste of
That is right
Yeah so long
You are going to have to face it
That you are nothing but a waste of space
You are such a waste
Nothing more than a waste of space
You are always out to lunch
Always too blind to see
You are just a tourist in another persons reality
Well take a look at yourself
Tell me can you see the signs
A real fool with no hope
I think you know
