"She Is An Angel"

She walks in with a gun
The lamp shyly shines
And if it's hers then it belongs to me

Yea she is mine
Yea she is mine

Hey men, she is an angel
Hey men, oh she is beautiful

She walks in with a smile
We shake hands like old friends

Well this tree is bearing fruit before it ever began,
before it ever began

Hey men, she is an angel

Oh Hey men, oh she is beautiful

Well I never ever ever met a girl like you
Well I never ever ever met a girl like you
Well I never ever ever met a girl like you
Well I never yeah I never met a girl like you
Well I never never ever ever never ever ever met a girl
like you
Well I never I never ever ever I never ever ever met a
girl like you
