We sold our children off to the wolves  
Been making deals we the devil for a long long time  
Well I listen and I heard the earth  
I heard her telling the angels that there's not much  
time

Slow down, sleep now  
Slow down, you're too loud

Well me an Jesus went our separate ways  
I took my money and I went to the middle of the city  
I gambled it all away

City lights at night sometimes are not so pretty

I was a ghost then and I walked this lonely street  
I was a ghooooost then and I took your sweet sweet  
smile away  
I was a ghooooooooost, I was a ghost  
I was a ghooooooooost, I was a ghost

Running through my blood like a hurricane oh no

Running through my blood like a hurricane oh no

You were a ghost then and you ran that lonesome race  
You were a ghost then and you took my sweet sweet  
smile away  
You were a ghooooooooost

Sweet Sweet sunshine where'd you go all the lights are  
gone and I can't go home  
Sweet Sweet sunshine where'd you go all the lights are  
gone and I can't go home

You were a ghost then and you ran that lonesome race  
You were a ghost then and you took my sweet sweet  
smile away  
You were a ghooooooooost then you were a ghost  
You were a ghooooooooost then you were a ghost
