In Ancient Days, in other lives, long past, but not forgotten  
I've known the power of mind and flesh, to have my will obeyed  
In Adonai and Babylon, Etruscans and Egyptians  
Came to my Temple - Journeyed to the Valley of the Moon

### BRIDGE

Deep Underground where no light dared to come,  
beneath my pyramid  
I stood in Hell, a mortal man, between Belial and Satan  
And still before my audience entranced with stark cold fear;  
I cured or struck with sickness, death, or made Insane  
my foes

### CHORUS

Yet here, in my 13th life, the mystic power of old  
Returns and as I say these words, my soul again in hell  
I conjure thee X 3  
I conjure thee appear,  
I raise thee mighty demon, come before me, join me  
here
