"Nobody Trusts You"

You're so stupid
You're so f***ing blind
Just shut up let me blow your mind
Nobody trusts you and it's no f***ing wonder
You tell the whole freaking world

Your mom is fat and your dad is too
God help them, they're stuck with you
I'll tape explosives to your spine
You can tell them that you ran out of time

You're still alive unfortunately
Better luck next time oh says me
Your parents disappointed and I am too
Just can't wait to get rid of you

You know nobody trusts you
They all hate you
They all want a gun
To blow the s**t out of you
Well says I, see you in hell
Chick chick poof bang bang your dead
Ha I shot you in the head
