"One Nation Under"

Coming from the 3rd world
Born for this cause
Buried my heart at the haulocausts
One nation under manipulation, brutalization,
domination
One nation under

Pushing the 4th world
Cant begin to count the loss
Free trade the new gun is raised
And how many lives will it cost?
One nation under assimilation , extermination ,
annihilation

One nation under

Shi keyah hozhon, what have they done?

They will never make us stop...
The truth will always resurface to the top
Behind their cover ups and crooked cops
They will never make us stop
They can never make us

Shi keyah hozhon, what have they done?
