We beat it up for the freaks
We're holding on to succeed
We beat it up for the creeps
We're holding on for some speed again

Kiss the empire, kiss my friend
All I get are some retarded ants
I've noticed what you like
I've noticed what you tell
Oh what a nice try, a nice try

We beat it up for the freaks
We're holding on to succeed
We beat it up for the creeps
We're holding on for some speed again

Modesty makes me lose myself in gravity
No sanity
Modesty made me give up all the sanctuaries
And sense in me

We beat it up for the freaks
We're holding on to succeed
We beat it up for the creeps
We're holding on for some speed again

Pass the voice to pass the killer
Catch it up for the thrill you wanna
Ever last on the latest high-drop
Make it up for the beast you gave up
