The eternal dark night came
Angelus
The infernal Satan's powers rose
Archangelus
The graves to Christians are opened
Satan's ghastly face is worshipped

Satan's legions from darkness came
Demons flying athwart the infinite
Christians to ashes by Satan's powers
Dark one master of the universe

Seraphim, Gloria in exelsis Diabolo
For I am Satan and all Universe screams

Gloria Diaboli

I am the power, I am the faith
I am the spirit, I am the pain
I am the sin, I am the lust
I am the fear, I am the Beast

Across the threshold of the eternity we fly
Against Christ and Heaven forever we fight
Demons with scythes aflame under a full moon
Waiting the infernal Satan's empire

Seraphim, Gloria in exelsis Diabolo
For I am Satan and all Universe screams

I am the inferno
I am the bloodbaths
I am the cursed nights
I am the universe

Gloria Diaboli
