Oh, infernal beasts rise up your horns to mutilate
Oh, demoniacal hordes raise your weapon to destroy

Oh, bestial legions unfurl your black flags to blind
All the saints who are dying in their paradise
Oh, unholy creatures devour the light to annihilate
All the Christian's faith in it's holy light!

No! No more a fake divinity
On the wings of Apocalypse we came
Tender preys to the magical slaughter
Rotting inside, ripping away, tear the veil of light!

Torve Morte -- Torve Morte!

Oh, this is the Torve Morte!

Shadows, darkness, and sulphur
That's Torve Morte
Annihilation, intimidation, and damnation

That's Torve Morte

Oh, infernal beasts rise up your horns to mutilate
Oh, demoniacal hordes raise your weapon to destroy

Torve Morte -- Torve Morte!
