The world is becoming a very black
Prepare for our next attack
When you come with your panzers
We rise and shoot with panzerfausts
Then you die!

Black forces of evil!
Panzerfaust Division Blackthrone
Infernal hordes of Satan!
Panzerfaust Division Blackthrone

You can't live after we have killed you
Because you are then very necro and dead
Your panzer is to be broken after we've
Risen with our panzerfausts

Dark evil Inferno men!
Panzerfaust Division Blackthrone
Our defence-line is so thick
With the power of evil we attack and kill
You cannot do anything because we always have
Our panzerfaust division Blackthrone ready

Dark evil Inferno men!
Panzerfaust Division Blackthrone
Hellish outlaws from Satan's side
Panzerfaust Division Blackthrone

Panzerfaust Division Blackthrone
Fistfucking the face of you
666 times in a day
Our defence-line is so thick
With the power of evil we attack and kill
Your tanks will be broken always
