They said they don't know why
I'm living for the first time,
They're running out of my life
I hope they do
I can't thank the time for giving back what was mine
I'm taking back the chances that wants our life.
Now feelings are within me
Destroy my only thought.
I left my ghost behind me
Discharged my only heart

(Chorus)

Please don't do this
we have come to far
now just let go
we have got to fight
i've lost my mind and tried to find a way to get it under
control.
my piercing eyes and dieing lies save me when i'm all
alone.
Friendships just unwind
just sit back for a moment and count the hours torn and
watch them fall.
when will we realize that choking hearts think right are
reasons we stay inside and wair for you.
my ending is within me morbid crosses my mind.
reading your story over you've lost all hope inside.

chorus

i've lost my mind and tried to find a way to get it under
control.
my piercing eyes and dieing lies save me when i'm
alone
