When them guns goes off, we be ready for war
When them guns goes off, bitches hit the floor
When them guns goes off, and them sirens roar
Better get that money and be out the door
When them guns goes off

Racket, racket, comin' out of the back end
Dead at you, he throwin' the hot lead at you
Swang affiliate, X.O. sip, a gold getter
With the rest to gather, my cold killer

It's, "Me Against the World" like 2Pac
And like Biggie, I'm "Ready to Die" for what you got
Got a crew with killas behind me, I'm grimey
I'm one of the big body, blowin' cushions where you
can find me

For figures, we bust triggers, who could fuck with us?
Dub, E-40, Christ Bearer, plus RZA
Stick you with the Blade, we gots to get paid
And for the moolah, we intertwine like French braids

And I can't fight the feeling like one way
When it comes down to this gangsta shit and gun play
For the loot, we compute it, quick to shoot it
So hit the switch, punk blew it, and bang the music

I don't care what it takes, we gon' make it
They say the chains too strong for us to break it
Willing to do what it takes for us to make it
And we can overcome anything we faced with
We are soldiers after all, down by honor we won't fall
after all

When them guns go off, bitches hit the floor
Or then forty four slugs gonna hit you, ho
I don't care what it takes, I pull out a gear
Fuck the snakes, and Kurtis Blow with The Breaks off

Artie Murphy and the Petty Coat Junction
Get two thirty off the head with cold dumplings
Niggaz jump when the AK bark

Crystal grip pump, make the gun niggaz spark

You dig? Niggaz ready for war
Been carryin' the world for so long, it ain't heavy no
more
And even when the sirens roar
I taught the violence gore to start firing more

And when we run out of bullets, and you still want
static?
I grab the three eighty and pull out the automatic
We better get the money, for shootin' Moss bergs and
Beretta's
Niggaz ain't shit funny, when it comes to a brawl
Suckin' North star, trippin' in guns go off, y'all know
y'all strippin'

Willing to do what it takes for us to make it
And we can overcome anything we faced with
We are soldiers after all, down by honor we won't fall
after all

Look out peon, we might of lost the battle, but we won
the war
I grab a bullet, travel, bodies hit the floor
Can't be scared of your shadow, you gotta have heart
Killas on my soil, will turn off the lights and park

Get out the car, unlock, fill out the chopper and let it
chop
Walk off like nothing happened, give a fuck 'bout a cop
Touch you with the Blade, take off your Toupee
Put my dirt in your glocks, sometimes I do my dark in
the day

My momma didn't raise no sick, she raised a beast
And I can't rest till my enemies rest in peace
The bigger they are, the harder they fall
Run up on me, I'ma knock the hell outta y'all

My back against the wall, strappin' and jackin', I'm
puttin' hands on 'em
One hitter, quitter, bob and weavin', karate stance on
'em
Dance on 'em, ran on 'em, and land on 'em
Put my brand on 'em, stand on 'em, because I can on
'em

When them guns goes off, we be ready for war
When them guns goes off, bitches hit the floor
When them guns goes off, and them sirens roar

Better get that money and be out the door

I don't care what it takes, we gon' make it
They say the chains too strong for us to break it
Willing to do what it takes for us to make it
And we can overcome anything we faced with
We are soldiers after all, down by honor we won't fall
after all
