Nah...After the night has fallen  
The sun comes up again  
You're the only one i'm missin'  
After my head stopped pullin'  
Came early for a visit  
Gay December afternoon  
Everything started calling  
You're the only one (2x)  
Nah...Nah...Nah...  
So many times i've wasted

So many times i tried  
And after all the hurtings  
I want you back, want you back again  
Nah...Nah..Nah...  
There's no one in this world  
Ever made me feel like this  
If you're a fantasy i want you be real  
Tobe real...Nah...said a Nah
