"All Good Now"

Visit "[All Good Now](#)" on MotoLyrics.com

I believe you can shine
If you have to grab the stars
Right out of the sky
Don't look back
Close your eyes
Sometimes you have to see it from your heart to get it
right
Sooner or later
When the dust has cleared
The sun comes out you are still here
Look at what you've found
Figure it out
It's simple when you think about it
When you are inside
Let it out
Everything you wanna be is coming around
It's all good now
It all works out
You'll see it all
Comes down
To taking chances
Living life
Just in time to get it right
Sooner or later when the dust has cleared
The sun comes out you are still here
Look at what you've found
It's all good now
