Now that it's over, now that you're not here
I have to start over but where to begin
I'm lost inside my head

I can't remember a day without you here
Piecing the puzzle of memories forgotten
And all that was left unsaid

I don't know where your heart is
Don't know if I'm too late
But I will find a way

Can you hear me now through all that the world is
screaming?
My voice will reach you somehow, somehow
Can you hear me now with every word I'm breathing
When you're a thousand miles away?

I knew when I saw you the day that we first met
I'd say anything just to stop your world and my love has
never left
I didn't have all the answers, didn't know our stories
end
But did my words find you then?

Can you hear me now through all that the world is
screaming?
My voice will reach you somehow, somehow
Can you hear me now with every word I'm breathing
When you're a thousand miles away?

You always listen to words left hurting
Now's your chance to heal a heart still yearning
You're the best thing that still is happening to me

You always listen to words left hurting
Now's your chance to heal a heart still yearning
You're the best thing that still is happening to me, me,
me
I'm still calling

Can you hear me now through all that the world is

screaming?
My voice will reach you somehow, somehow
Can you hear me now with every word I'm breathing
When you're a thousand miles away?

You always listen to words left hurting
Now's your chance to heal a heart still yearning
You're the best thing that still is happening to me, me,
me

You always listen to words left hurting
Now's your chance to heal a heart still yearning
You're the best thing that still is happening to me, me,
me
