Four in the morning
Heart on my sleeve.
In your eyes, possibilities
I confess this is new to me
But maybe this is love.
I got to know that this thing is real
That you're feeling just what I feel
No more room in this heart to steal
You know it's had enough

In the morning when I wake up
You're the first thing that I think of
I can make it through anything
Knowing that I've got you.
In the morning when I wake up
Nothing else can take the place of you
And I know this sounds crazy, but

I don't know where this is
I don't know what I'm in
I can't see down the road
But it don't matter long as I got you
My world could fall apart
This life could get to hard
There's so much that I can loose
But it don't matter long as I got you, long as I got you.

My heart beats so fast I just can't keep up
You pull on me like a drug.
I'll never go cold cause I don't wanna give you up.
Some people search their whole life to find what I
found now.
Im out of time gotta tell you what's on my mind
And pray that it's enough

In the morning when I wake up
You're the first thing that I think of
I can make it through anything
Knowing that I've got you.
In the morning when I wake up

Nothing else can take the place of you

And I know this sounds crazy, but

I don't know where this is
I don't know what I'm in
I can't see down the road
But it don't matter long as I got you
My world could fall apart
This life could get to hard
There's so much that I can loose
But it don't matter long as I got you, long as I got you.

Think about it
We fit like a puzzle, no missing pieces
Never doubt it.
I'm writin' a story and you're my thesis
Look around it.
Its happenin' natural as can be
Since I found it
I'm not gonna let it go, let it go

I don't know where this is
I don't know what I'm in
I can't see down the road
But it don't matter long as I got you
My world could fall apart
This life could get to hard
There's so much that I can loose
But it don't matter long as I got you,

I don't know where this is
I don't know what I'm in
I can't see down the road
But it don't matter long as I got you
My world could fall apart
This life could get to hard
There's so much that I can loose
But it don't matter long as I got you, long as I got you.
As long, long as I got you now.
As I got you now
