**(feat. Lupe Fiasco)**

*[Verse 1]*

I saw your picture in the paper today girl  
All 'a sudden it hit me  
You're someone that should know me  
Possibly drive me crazy  
In the pages and all over the magazine covers  
People gossip about you and your long list of lovers  
You don't - girl you don't know about me  
But you will, that's for sure -  
Let's start with an introduction!

*[Chorus]*

I want you to know my name  
Take a little sip with some conversation  
It's driving me insane  
What's it gonna take for some motivation?

I want you to know my name  
Girl, I just ain't got no shame  
Them other guys causing you pain?  
I'll show you that I'm not the same  
I swear to you I'm not the same, oooh

*[Verse 2]*

I've got this question I keep asking myself  
Are you my cure for addiction?  
Are you love's definition?  
Or just bad for my health?  
There's only one way to find out  
What we need is each other  
Make our own little story  
We could start it today

*[Chorus]*

I want you to know my name  
Take a little sip with some conversation  
It's driving me insane  
What's it gonna take for some motivation?

I want you to know my name

Girl, I just ain't got no shame  
Them other guys causing you pain?

I'll show you that I'm not the same

*[Bridge]*

This is how it's gonna look, just like this  
You and me pretty girl, and a future of bliss  
You want a dog, white fence, maybe a couple of kids?  
Anything, I'm-a bring ya, just make me a list

(I promise I can make you smile)  
This is how it's gonna look, just like this  
You and me pretty girl, and a future of bliss  
(Oh, I swear that I'll be worth your while)  
You want a dog, white fence, baby, a couple of kids?  
Anything, I'm-a bring ya, just make me a list

I promise I can make you smile  
Oh, I swear that I'll be worth your while

All I wanna do is know you

*[Chorus]*

I want you to know my name  
Take a little sip with some conversation  
It's driving me insane  
What's it gonna take for some motivation?

I want you to know my name  
Girl, I just ain't got no shame  
Them other guys causing you pain?  
I swear to you I'm not the same

*[Chorus]*

I want you to know my name  
Take a little sip with some conversation  
It's driving me insane  
What's it gonna take for some motivation?

I want you to know my name  
Girl, I just ain't got no shame  
Them other guys causing you pain?  
I'll show you that I'm not the same *[x2]*

Not the same
