Hot and sexy is the definition of her  
So why she workin' with someone who doesn't value  
her worth?

Don't want to be the onoe  
To come between, cause that's not my style  
If it don't happen now it's just a matter of time

Till she realizes what she needs  
Let go and just release herself from love not working  
Till she realizes what she needs  
Let go and just release herself from love thats hurting

What'cha got to lose  
Not trying to me rude, just telling it like I see  
What do I got to do  
To pull you away and get you alone with me  
Dont waste your time with a man who just don't  
understand  
What'cha got to lose  
Break these chains and walk away with me, yeah

What'cha got to lose  
What'cha, what'cha, what'cha, got to lose  
What'cha got to lose, yeah, yeah  
What'cha got to lose  
What'cha, what'cha, what'cha, got to lose, to lose

Allow this introduction girl the pleasure is mine  
Contradicting myself now push your man to the side  
Don't want to be the one to come between  
Something's gotta give  
Take my hand, that's the plan  
I'm taking you from yo man

Till she realizes what she needs  
Let go and just release herself from love not working  
Till she realizes what she needs  
Let go and just release herself from love thats hurting

What'cha got to lose  
Not trying to me rude, just telling it like I see  
What do I got to do

To pull you away and get you alone with me

Dont waste your time with a man who just don't  
understand

What'cha got to lose

Break these chains and walk away with me, yeah

What'cha got to lose

What'cha got to lose, my baby

What'cha got to lose

What'cha got to lose, my baby

What'cha got

What'cha got to lose

She got a sexiness

Overflowing finesse

It is evident that she's my queen

One good look in has eyes has got me mesmerized

I want to give her everything that she needs

Till she realizes what she needs

Let go and just release herself from love not working

Till she realizes what she needs

Let go and just release herself from love thats hurting

What'cha got to lose

Not trying to me rude, just telling it like I see

What do I got to do

To pull you away and get you alone with me

Dont waste your time with a man who just don't  
understand

What'cha got to lose

Break these chains and walk away with me

Till she realizes what she needs

Let go and then released herself from love not working

Till she realizes what she needs

Let go and then released herself from love thats  
hurting

What'cha got to lose

Not trying to me rude, just telling it like I see

What do I got to do

To pull you away and get you alone with me

Dont waste your time with a man who just don't  
understand

What'cha got to lose

Break these chains and walk away with me, yeah
